

# Attention all Oracle Applications & Database Users

## Premier User Group Event

- ◆ Melbourne Convention Centre
- ◆ 16 & 17 August 2010

# InSync10

The most comprehensive Oracle applications & technology content under one roof

## Innovate, Interact, Educate and Maximise the Use of your Oracle software

You can't afford to miss this opportunity get "insync" with other Oracle users to share ideas and expand your knowledge. Come to InSync10 and answer the question, "Is there a better way to do this?"

### Join like-minded peers and share ideas, innovation and solutions.

The most comprehensive Oracle applications and database agenda outside the US. You are invited to join the family of Oracle applications and database users in Australia and New Zealand at this leading user event.

### Who should attend?

Functional users and managers in HR and Finance, Operations, Management, IT professionals and consultants. Anyone who uses E-Business Suite, JD Edwards, Hyperion, Primavera, PeopleSoft, Siebel, Database and Fusion Middleware in your organisation. And anyone who is involved in defining your organisations' applications road map. There will be dedicated sessions focused on how you can leverage Oracle's current products, upgrades, and technologies to prepare for the road ahead.
