

Day 1 - Tuesday 16 August

	General	Applications						Middleware		Database		Server & Storage Systems
Stream	New & Emerging	E-Business Suite1	E-Business Suite2	JD Edwards & PeopleSoft1	JD Edwards & PeopleSoft2	JD Edwards & PeopleSoft3	Primavera	Developer & Fusion Middleware1	Developer & Fusion Middleware2	Database and Technology1	Database and Technology2	Oracle Systems
Rooms	Bayside 203	Bayside 104	Bayside 105	Auditorium A	Bayside 101	Bayside 102	Bayside 201	Bayside 106	Bayside 107	Bayside Gallery B	Bayside 103	Bayside 202
8.00 - 8.30	Registration and Arrival Tea/Coffee											
8.30 - 9.00	InSync11 Official Welcome Martin Power - AUSOUG, Paul Turner - Quest Australia & New Zealand, Ian White - Oracle Australia & New Zealand (Auditorium A)											
9.00 - 10.00	Opening Keynote Address: Off balance on purpose - Dan Thurman, Author of <i>Off Balance on Purpose</i> (Auditorium A)											
10.00 - 10.15	Transit											
10.15 - 11.00	Building an event driven architecture David Gresham Red Rock Consulting	Oracle E-Business Suite applications strategy and general manager update (Bayside 104) Nadia Bendjedou Oracle	Mobilise your enterprise with the right platform - It's just out there Johann Poppenbeck DSI	Maximising your JD Edwards investment Daniel Smith & Greg Taylor Red Rock Consulting	Achieving faster results with JD Edwards EnterpriseOne HCM Workflow Automation James Hoal Oracle	Oracle Primavera vision and road ahead Mike Sicilia Oracle	An introduction to Oracle XML DB in Oracle Database 11g Release 2 (Bayside 106) Mark Drake Oracle	Oracle Database Performance 'Aim High' Andrew Holdsworth Oracle	Clonedb: The quick and easy cloning solution you never knew you had Tim Hall Oracle-Base.com	Running Oracle on Oracle - why you should and how you can Angus MacDonald Oracle		
11.00 - 11.30	Morning Break (Bayside Grand Hall)											
11.30 - 12.15	Oracle customer support update: Investing in a better support experience Andrew Pognoski Oracle	Extending EBS with Apex and other tools Tony Scholefield Santos	R12: Sub ledger accounting - transition from 11i to R12 Rajesh Narang Westpac	Auditors at the door - JDE Security David Rogers Cerebos	Best practices for managing Your JD Edwards data: Preparing for upgrades & migration Sam Sampathnathan IBM	Reduce invoice processing costs and cycle time with document capture and imaging Sumedh Vipradas Systime	Customer Panel Adam Cimino Fortior Global	The ultimate sales pitch for ADF - on strategic importance and practical value Chris Muir Sage Computing	Lead to order integration of CRM on demand and Oracle E-Business Suite Michael Baggott, Norman Weaver Dataweave	Making the most of Solid State Disk in Oracle database 11g Guy Harrison Quest Software	Best practices for capturing meta data for productive database development Damien Bootsma Embarcadero	Solaris & Oracle Enterprise Linux. Oracle's two OS strategy Nathan Kroenert Frontline Systems
12.15 - 12.30	Transit											
12.30 - 1.15	Mobile computing: Insights and recommendations Basheer Khan Innowave Technologies	Making Oracle projects perform in Santos Craig Metters Santos	Real world ROI of an ERP implementation: Measuring the tangibles & intangibles Rahul Thadani University of Alabama	JD Edwards Go 9 (Auditorium A) John Schiff Oracle	PeopleSoft roadmap & update Marc Weintraub Oracle	The evolving maturity of project planning and control at Leighton Contractors Robert Turner Leighton Contractors	A change is as good as REST: Oracle Jdeveloper 11g's REST web services Chris Muir Sage Computing	Putting business intelligence on the map with Mapviewer Ashley Beauman Rittman Mead Oce	Efficient PL/SQL - why and how to use PL/SQL to its greatest effect (Bayside Gallery B) Tom Kyte Oracle	Solaris as a service for Oracle applications at AAPT David Yuile AAPT Ltd		
1.15 - 2.00	Lunch Break (Bayside Grand Hall)											
2.00 - 2.45	Adding mobile and web 2.0 UIs to existing applications - The fusion way Michael Andrew Oracle	The anatomy of multiple language support (MLS) in Oracle EBS Jim Pang Westpac	R12.1.3 - the business case Jeannie Dobney JD Consulting	Best practices for upgrading Jeff Erickson Oracle	JDE EnterpriseOne as the focus of WCB's ICT plan Ian Spencer Warrnambool Cheese	PeopleSoft human capital management: Vision and Roadmap Antionette Leuthard Oracle	Portfolio comparison and resource analysis using P6R7 M. Jawad Shakeel Novo Rail	Fusion Middleware and cloud services Frank Munz Munz & More	Building a custom BPM worklist Mark Nelson Oracle	Database security - Methods and techniques Barbara Rabinowicz IBM	10 things you possibly don't know about Oracle indexes Richard Foote Australian Government	You're upgrading your software. Is now the time to consider the infrastructure? Nathan Kroenert Frontline Systems
2.45 - 3.00	Transit											
3.00 - 3.45	Gaining control of the procure to payment process Bevan Wright Fusion5	EBS growth powered by IBM & Oracle Peter Kennewell IBM	How to reduce cost and time whilst upgrading to R12 T. sharan Kumar Tourism Australia	News Ltd says NO to flat files Sam Kumarasamy News Limited	Security implications of upgrading JD Edwards Enterprise One Mike Ward Q Software Global	JD Edwards World technology: Expanding your world John Schiff Oracle	Beyond scheduling: Aligning primavera EPPM & organisational cost management Velmurugan Ganapathy Superpartners	Integrate your 3PL with JDE using Oracle Fusion Middleware Advait Waghmare Systime	Web2.0 for the Enterprise Paul Ricketts Oracle	Innovations to optimise Oracle (Bayside Gallery B) Stuart Zorbas HP Australia	An insight into what is coming next Angus MacDonald Oracle	
3.45 - 4.15	Afternoon Break (Bayside Grand Hall)											
4.15 - 5.00	Implementation of Fusion Applications using the Oracle Unified Method (OUM) David Burke Oracle	Oracle E-Business Suite technology: Vision, release, overview and product roadmap (Bayside 104) Nadia Bendjedou Oracle	JD Edwards EnterpriseOne in the big bad world of SOA Michael Pion Oil Search	Maintenance scheduling of electricity & gas assets Denise Hill Powerco	PeopleSoft financials high-value roadmap beyond 9.1 Marc Weintraub Oracle	Implementing EPPM in a rapidly changing and competitive business environment Bill Round, Xstrata Coal & Loretta Baylis, Prescience Technology	[n] methods to improve Apex performance Scott Wesley Sage Computing	An engineered platform solution for cloud applications Angelo Joseph Oracle	SQL elapsed time analysis Craig Shallahamer OraPub	Mixed workloads - why and how Martin Lambert Oracle	Tomorrow's datacentre and Oracle Angus MacDonald Oracle	
5.00 - 5.15	Transit											
5.15 - 6.00	Oracle's cloud computing strategy for applications' customers - Roland Slee & Doug Hughes, Oracle (Auditorium A)											
6.00 - 7.30	Welcome Reception (Bayside Grand Hall)											

Day 2 - Wednesday 17 August

	General		Applications						Middleware		Database		Server & Storage Systems
Stream	New & Emerging	E-Business Suite1	E-Business Suite2	JD Edwards & PeopleSoft1	JD Edwards & PeopleSoft2	JD Edwards & PeopleSoft3	Primavera	Reporting	Developer & Fusion Middleware1	Developer & Fusion Middleware2	Database and Technology1	Database and Technology2	Oracle Systems
Rooms	Bayside Gallery A	Bayside 104	Bayside 105	Auditorium A	Bayside 101	Bayside 102	Bayside 201	Bayside 203	Bayside 106	Bayside 107	Bayside Gallery B	Bayside 103	Bayside 202
8.30 - 9.00	Arrival Tea/Coffee												
9.00 - 9.45	What's next for Oracle's Applications User Experiences? Jeremy Ashley Oracle	Oracle E-Business Suite financials overview (Bayside 104) Terrance Wampler Oracle	Include work centre error messages in logs when importing transactions via "Z" Tables Peter Bruce University of Woolloongong	Clifford Hallam Healthcare picks right the first time with JD Edwards EnterpriseOne & a Mobile Workplace solution Ged Halstead, CH2 & Johann Poppenbeck, DSI	Integrating PeopleSoft HRMS Melita Skurray Aon	Today & tomorrow: What's new in Primavera and planned roadmap Yasser Mahmud Oracle	Oracle's strategy and roadmap for Hyperion performance management applications Marty Engel Oracle	Log files: A wealth of forensic evidence Kevin Powe Integral Technology	An introduction to Oracle SOA for application integration Alex Peattie Oracle	Delivering Oracle's high availability database services in minutes: A case study on 11G OEM (Bayside Gallery B) Martin Power Logicaltech	The IT landscape has changed - Have you? Part 1 Kevin McIsaac IBRS		
9.45 - 10.00	Transit												
10.00 - 10.45	Simplifying the change process Kris Downey Pacific DBMS	Oracle project management for users of project costing/billing Jeannie Dobney JD Consulting	FRAUD & it's part in YOUR downfall Mike Ward Q Software Global	Achieving cost effective third party application integration with JD Edwards Dean Hansen Ndevr Pty Ltd	JD Edwards EnterpriseOne applications going mobile Jeff Erickson Oracle	Enhance Useability using PeopleSoft Forms and Approval Builder Victoria Cleven Oracle	Mind the gap! Strategies and tools to help bridge end-user skill gaps in your Project Controls implementations Rebecca King Fortior Global	OBI Analytics for JD Edwards, Best Practices, Lessons Learnt Paul Vella Red Rock Consulting	Angles in the architecture: An Oracle ADF Architectural blueprint Chris Muir Sage Computing	SOA, portals and enterprise integration with JDE Scott Robertson Thies	Ashes of DBTime Graham Wood Oracle	Oracle 11g Top 10 features: Not your usual top 10! Shan Nawaz Verisign	The IT landscape has changed - Have you? Part 2 Kevin McIsaac IBRS
10.45 - 11.15	Morning Break (Bayside Grand Hall)												
11.15 - 12.00	Oracle applications strategy and roadmap (Auditorium A) Doug Hughes Oracle						Overview of Primavera contract management for change management and contract conditions James Read Oracle	Operational information - The business case for BI Darrell Hawkes Turner Industries	Application Performance Monitoring: Improve user experience, reduce user abandonment (Bayside 106) Christian Ledwidge Quest Software	Why you should be storing unstructured data in the Oracle database Marcelle Kratochvil Piction	Oracle security tips: Some easy ways to make your DB more secure Francisco Munoz Alvarez Revera NZ		
12.00 - 12.15	Transit												
12.15 - 1.00	Fusion apps overview from an implementation perspective (Auditorium A) Basheer Khan Innovave Technologies				Real world experiences - disaster recovery Mark Elley Jireh Consulting	Seeing through the clouds: A guide to software as a services (SaaS) for HR Execs Kristina Webb Oracle	Optimizing the Capital Asset Lifecycle Management Process Guy Barlow Oracle	Operational management to performance excellence Scott Tunbridge Oracle	Leveraging the full power of the Oracle XML DB repository Mark Drake Oracle	Event driven SOA integration: The good, the bad and the ugly Aaron Blishen Intelligent Pathways	Unit of work time based performance analysis Craig Shallahamer OraPub	Managing optimizer statistics - A better way Connor McDonald Independent	
1.00 - 1.45	Lunch Break (Bayside Grand Hall)												
1.45 - 2.30	Best practice CRM transformation at Sydney Water Corp using Siebel eUtilities Narelle Borg & Ashley Jagoe Sydney Water Corporation	E-Business Suite projects, vision, roadmap & customer successes (Bayside 104) Dean Herback Oracle	JD Edwards Upgrade to the 9's John Schiff Oracle	Fulfillment & apparel management modules Scott Ash Oracle	PeopleSoft HCM 9.1: Achieving talent management excellence Linda Hemsworth Oracle	Pixel perfect project reporting from P6 Greg Horsfall Fortior Global	Oracle E-Business Suite reporting & enquiry Francis Nocom, Cochlear & David Grant, Excel4apps	Paper-process automation for Oracle applications Paul Ricketts Oracle	How Australia Post teaches you everything you need to know about SOA Greg Kirkendall Fusion5	Why use Oracle Data Guard? Milina Ristic TelstraClear	11g new functionalities for DBAs Francisco Munoz Alvarez Revera NZ	Exadata - The facts and myths behind a proof of concept Tony Jambu Wizard Consulting	
2.30 - 2.45	Transit												
2.45 - 3.30	The five most common pitfalls when implementing EPM Suite and how to avoid them Soner Bekir Infractets	Fusion master data management Tony Boyle Oracle	Achieving outstanding Optim Data Management Practice within your Oracle EBS enviroment Ben Davis IBM	8.0-9.0: An eight year jump Brent Couits Coopers	Using UPK in the upgrading process Jeff Erickson Oracle	PeopleTools 8.51 highlights - PeopleTools in action Victor Li Oracle	Integrated project control systems Richard Houghton Metro Trains Melbourne	Planning & budgeting at QUT with Hyperion Rick Cooper M-Power Solutions Berndt de Bruyn QUT	Continuous integration for SOA/BPM 11g Mark Nelson Oracle	Oracle web/portal strategy - A guide to success Dennis Remmer Logicaltech	Flashback query - Oracle Total Recall and some of its uses Clancy Bufton Park Lane	The biggest loser database: A boot camp case study Paul Guerin Origin Energy	Best practices for simplifying implementation of Oracle's software on Oracle's hardware David Baker Oracle
3.30 - 4.00	Afternoon Break (Bayside Grand Hall)												
4.00-4.45	UPK - What's new & product roadmap Beth Renstrom Oracle	Planning your Oracle E-Business Suite upgrade from 11i to release 12.1 and beyond (Bayside 104) Nadia Bendjedou Oracle	Effective use of JD Edwards EnterpriseOne tools and technologies (Auditorium A) Jeff Erickson Oracle	Improve ROI & lower costs by mastering PeopleSoft upgrade tools & resources Victoria Cleven Oracle	Integration with Primavera Greg Macpherson Oakton	Upgrading Oracle EPM from v11.1.1 to v11.1.2 - A real life experience Erica Harris Waikato Regional Centre	Building advanced APEX 4 user interfaces Mark Lancaster Thies	Edition-Based Redefinition: PL/SQL application upgrades made easy Tim Hall Oracle-Base.com	SQL Techniques (Bayside Gallery B) Tom Kyte Oracle	Engineering solutions - Exadata/Evalogic: The value that engineered solutions brings to db & application admins Jeff Schwartz Oracle			
5.00	End of Program
